Dear Digital Equity Champions:

Thank you for your dedication to transforming lives through your support of the California Emerging Technology Fund (CETF).

This message is a reminder to consider donating to the [CETF Digital Equity Fund](#) to "Give the Gift of Connectivity" this Giving Tuesday, November 28th. Donations to the Digital Equity Fund will directly assist in purchasing computing devices for low-income households who are enrolling in the federal Affordable Connectivity Program (ACP) and completing digital literacy training.

Thanks to our spectacular spectrum of partners and network of community-based organizations, we have assisted over 1 million households in gaining affordable home Internet access and have helped an equal number to become digitally proficient. And we are continuing to make progress by hosting *Get Connected! California* ACP Enrollment events statewide.

You also can make a big difference by forwarding this message to your network of colleagues and by taking a moment to interact with CETF social media channels listed below. Thank you for being a champion to transform the lives of Californians in this Digital Age when **Internet Access is a 21st Century Civil Right.**

With gratitude,

Sunne Wright McPeak
President and CEO
California Emerging Technology Fund
