Dear Digital Equity Champion:

Today, we celebrate **Giving Tuesday** and invite you to join the spirit of generosity by "Giving the Gift of Connectivity" and donating to the **California Emerging Technology Fund (CETF) [Digital Equity Fund](#)**.

Your contribution to the Digital Equity Fund will have a profound impact in changing the lives of others – from enabling children to succeed in school to helping parents apply for better job opportunities and ensuring access to healthcare. All donations to the Digital Equity Fund directly assist in purchasing computing devices for low-income households who are enrolling in the federal Affordable Connectivity Program (ACP) and completing digital literacy training.

CETF in partnership with an exceptional spectrum of partners and a network of community-based organizations have reached amazing milestones. Together, we've assisted more than 1 million households in getting connected to the Internet with affordable service and become digitally proficient. The momentum continues as we host *Get Connected! California* ACP Enrollment events statewide. You can learn more at [CETFund.org](#).

Your support is crucial to achieving Digital Equity in California, and today is the perfect opportunity to make a difference. Please give the gift of connectivity by donating to the CETF Digital Equity Fund to help us continue transforming lives through Digital Inclusion.

Thank you for your commitment to **Internet Access as a 21st Century Civil Right**.
